UNDERGRADUATE MAJOR: \_\_\_\_\_

\_\_\_ I have a grade point average of 2.00 or above.

\_\_\_ I understand that a maximum of 13 quarter units taken during the final quarter of attendance at CSUEB (beyond those required for graduation as an undergraduate) may be applied as graduate credit pending approval of the graduate department. Units from a single course cannot be split between undergraduate and graduate credit. earned

\_\_\_\_\_ during my last undergraduate quarter does *not* constitute residence credit. Most Cal State East Bay master's degrees require 45 units, 32 of which must be in residence. Applying a maximum of 13 quarter units from the last quarter of my undergraduate career toward my graduate degree would use all of my non-residence credit allowance, and I would not be able to use any transfer, Extension, or Open University units toward my master's degree.

\_\_\_ I request that the graduate credit be applied in the \_\_\_\_\_ Department.

Please apply graduate credit for the following courses taken during my last quarter as an undergraduate student:

Department	Course No.	Course Title	Units

Student signature: \_\_\_\_\_

Date \_\_\_\_\_

Approved

Not approved

Graduate department chair signature: \_\_\_\_\_

Date \_\_\_\_\_
