_____ *(past tense)*

Use a sub-heading for each area assessed. Begin with the primary problem area and list other areas in decreasing order of severity. Group together any areas which are within normal limits in a concluding statement. When reporting results of a formal test, state and underline the full name of the test and compare client's performance to norms in test manual. Raw scores are typically not reported for most measures. If testing was invalidated, state why, providing a more qualitative description of test performance. Utilize a table to summarize...
